

Medicaid Provider Enrollment Requirements by State

REVISED MARCH 15, 2024

Purpose

This document provides information on state-specific provider enrollment requirements for states where Blue Cross and Blue Shield (BCBS) Plans offer Medicaid products. This document will be updated as BCBS Medicaid Plans provide updated requirement information.

Background

State Medicaid agencies contract with BCBS Plans as Managed Care Organizations (MCOs) to provide comprehensive Medicaid benefits on a risk basis. Federal regulations guide these relationships, but the eligible population, covered benefits, and specific rules regarding each state's Medicaid program can vary from state to state. Many state Medicaid programs require providers to enroll as Medicaid providers with the state Medicaid agency before payment can be issued. In some cases, state Medicaid programs requiring provider enrollment will accept a provider's Medicaid enrollment in the state where the provider practices. Information in this document was confirmed by the BCBS Plans that have Medicaid business in the states listed.

Provider Instructions

Please refer to the table below for state-specific Medicaid provider enrollment requirements if 1) a claim submitted for a Medicaid member to whom you provided services has been denied, and 2) you have received notice from a BCBS Plan that the state where the member is enrolled in Medicaid requires provider enrollment in their Medicaid program before the BCBS Plan can issue payment.
